

ENVIRONMENT AND COASTAL MANAGEMENT

Strategic projects in the PACA region

Covering the entire coastal area of the Provence Alpes Côte d'Azur region, the Sea Innovation and Business Cluster plays a key role in the mastery of environmental challenges linked to the sea, combining valorization of human and economic activities, all while safeguarding resources.

> GIRAC Integrated management of coastal sewer network discharges

Managed by Veolia, the GIRAC project aims at improving bathing water by developing, for water sanitation network managers, operational tools enabling them to know in real-time sanitation discharges and their evolution with regard to meteorological conditions.

Project leader
Véolia Eau

Industrial partners
Acri and NKE

Research partners
Ifremer, LSEET USTV, Protee, COM and Météo France

Budget
6303 K€ over 4 years.
Project co-financed by the FUI, the PACA region, the French Agency for Water (Agence de l'eau), TPM, GC83, CG 06 and CASA.

> REGICOLOR

The REGICOLOR project is related to marine environment survey based on an operational service for processing, dispatching and valorization of water color data obtained by spatial teledetection.

Project leader

Acri

Industrial partner

Alcatel Alénia Space

Research partners

Mediterranean Ifremer and the Oceanographical Observatory of Villefranche (LOV)

Budget

4 000 K€ over 3 years.
Project co-financed by the European Union and the PACA Regional Council.

> UVPACA Impact of the ultraviolet radiation on the marine environment in the PACA region

The UVPACA project, supported by the Oceanological Center of Marseille, aims at studying the impact of the ultraviolet radiation on ecosystems. It should be able to inform local authorities, the health sector, the public and leisure centers of doses and ultraviolet flux for the Provence Alpes Côte d'Azur region coastal area.

Project leader
LMGEM-COM

Industrial partners
Acri, Airmarex
and ILIOS Technologies

Budget
489 K€ over 4 years.
Project co-financed by the PACA Region and the Bouches-du-Rhône Department.
